

Quality Policy

THE DAY WE CEASE GETTING BETTER IS THE DAY WE STOP BEING GOOD!

Quality issues are an integrated part of LEAX Falun's daily activities where we design and assemble propeller shafts, manufacture and assemble transmission components. LEAX Falun fulfills all legal requirements, other requirements and works continuously to be a good example for others interested parties.

CUSTOMER'S FIRST CHOICE

We continuously listen to our customers in order to understand their present and future needs to be able to align our continuous improvements accordingly. By doing this we strive to be the first hand choice for our customers.

COMPETITIVE

We take care of the employee's knowledge, competence and experience so that everyone feels joy, motivation and involvement in their daily work. Continuous development of our standards is a prerequisite for us to manage our future possibility to compete.

RIGHT FROM ME

We deliver correct parts, with right quality in right time to ensure our customers satisfaction and always protect our customer in every situation.
