

1 Purpose

The purpose with the environmental policy is to define our ambition regarding sustainable development within the LEAX Group.

2 Applicability

LEAX Group and its subsidiaries

3 Process Owner

LEAX Group President and CEO

4 General

It is the responsibility of each employee to understand and act in accordance with this policy and to promptly inform management of any environmental risks or suggestions of improvement.

It is the responsibility of each member of management to ensure compliance with this policy and promote a positive development of our work with continuous improvements.

5 Environmental Policy

“The day we cease getting better is the day we stop being good!”

Environment issues are an integrated part of the daily activity. LEAX's fulfills all legal requirements, other requirements and works continuously to develop our standards to be a good example for employees, customers and other business partners within our sphere of influence.

LEAX continuously reduce our environmental impact by working for the following three environmental objectives:

Fresh air: Through thoughtful choices, we strive to reduce emissions of VOCs and oil mist into the air. Through well planned logistics solutions we reduce the impact of our transports.

Toxic Free Environment: Through our control of chemical usage we review and assess all chemicals in our processes and strive to replace or remove chemicals which may be a risk to our environment.

Reduced climate impact: We reduce our environmental footprint by using energy-efficient solutions well planned logistic solutions, reusing and recycling of material.
