## 1 Purpose

The purpose with the quality policy is to define our ambition regarding work for quality and continuous improvements within the LEAX Group.

## 2 Applicability

LEAX Group and its subsidiaries.

## 3 Process owner

LEAX Group President and CEO

## 4 General

This policy is appropriate to the purpose and context of the organization and supports its strategic direction.

It is the responsibility of each employee to understand and act in accordance with this policy and to promptly inform management of any quality risks or suggestions of improvement.

It is the responsibility of each member of management to ensure compliance with this policy, ensure that resources needed for quality management system are available and promote a positive development of our work with continuous improvements and support of our processes.

## 5 Quality Policy

**“The day we cease getting better is the day we stop being good!”**

Quality issues are an integrated part of the daily activity. LEAX's fulfills all legal requirements, other requirements and works continuously to be a good example for other interested parties.

**Customers' first choice:** We continuously listen to our customers in order to understand their present and future needs to be able to align our continuous improvements accordingly. By doing this we strive to be the first hand choice for our customers

**Competitive:** We take care of the employees' knowledge, competence and experience so that everyone feels joy, motivation and involvement in their daily work. Continuous development of our standards is a prerequisite for us to manage our future possibility to compete.
